Product Lines

ALICAT SCIENTIFIC www.alicatscientific.com

Manufacturer of mass flow meters, mass flow controllers and pressure controllers.

A.P.C.S PTY. LTD. www.apcs.net.au

Signal Processing and Control Instrumentation. Modules for Conditioning, Isolation, Conversion, Alarming and Interfacing. These units are available in DIN-Rail, Stand Alone, Front Panel Mount, Field Mount and Wall Mount. Field Calibrators, Isolators, Simulators and A.C. Voltage and Current Sources.

APG: AUTOMATION PRODUCTS GROUP www.automationsensors.com

Ultrasonic, Pressure, Liquid Level, Solid Level, Continuous Level, and Flow Sensors.

CAL CONTROLS www.cal-controls.com

Temperature and process controllers.

CELESCO TRANSDUCER PRODUCTS www.celesco.com

Cable-Extension Transducers, 2" to 1700" displacement, and Linear Potentiometers, 2" to 10" stroke. Also available are Rotary Position Transducers, Inclinometers and Digital Position Transducers.

EVEJOIN INTERNATIONAL 1, 2, and 3-Axis linear scales and displays.

EVERIGHT POSITION TECHNOLOGIES www.everightsensors.com

Manufacturer of linear, rotary, tilt and intrinsically safe position sensors. Also displacement transducers and potentiometers.

HAWK MEASUREMENT www.hawklevel.com

Ultrasonic level. Microwave level and flow switches.

INTERFACE www.interfaceforce.com

Load cells and torque transducers.

JUMO PROCESS CONTROL, INC. www.jumo.us

Pressure Transducers, Sensors and Transmitters. Temperature and Humidity Sensors and Controllers, Recorders Analog and Digital. Temperature Thermostats and Control Systems.

JOWA USA www.jowa-usa.com

Level measurement of liquids and solids using contact and non-contact methods. Resistance tape and pressure methods. Transmitters and displays also available.

LAUREL ELECTRONICS <http://www.laurels.com/>

Digital panel meters, counters, timers; Large Digit displays.

LENORD+BAUER <http://www.lenord.de/en/>

High-performance magnetic linear and rotary encoders.

LIQUID CONTROLS www.liquidcontrols.com

Flow Meters including: Positive Displacement, Turbine (Sponsler), Coriolis, and Electromagnetic.

LOGIC BEACH <http://www.logicbeach.com/>

Design, manufacture and sales of portable, remote site, in-vehicle and lab data logging instruments. Low power, multi-channel data loggers are our specialty, incorporating flexibility in I/O configuration while maintaining simplicity in use.

M-SYSTEMS www.m-system.com

Supplier of high-quality electronic equipment which meets the diverse requirements for signal conditioners, limit alarms, power transducers, remote I/O devices, lightning surge protectors and other unique process control equipment, which are needed to interface in the field of process and factory automation.

NOVOTECHNIK www.novotechnik.com

Linear and rotary position transducers. Potentiometric and non-contact types.

OHIO SEMITRONICS INC. (OSI) www.ohiosemitronics.com

Current, voltage and power transducers; AC and DC

OPKON www.opkon.com.tr

Linear magnetic and potentiometric encoders. Rotary magnetic and optical encoders.

RACINE FEDERATED www.racinefed.com/flow.cfm

The Racine Federated family includes Blancett, Dynasonics, Flow-tech, Hedland, Preso and Racine.

SANTEST – Magnetostrictive Displacement Transducers.

SMARTEC www.smartec.nl

Digital and IR Temperature Sensors. Humidity and pressure sensor, and Universal Transducer Interfaces. Multiplexer; 4 and 8-channel temperature data acquisition system.

SEAMETRICS www.seametrics.com

Flowmeters including: insertion and flanged magmeters, insertion paddlewheel and turbine meters, water pulse rate meters; transmitters and totalizers.

SOLARTRON METROLOGY www.solartronmetrology.com

Precision dimensional measurement and position measurement transducers & instrumentation.

SOLID APPLIED TECHNOLOGIES www.solidappliedtechnologies.com

Ultrasonic level transmitters and gauges. Ranges up to 131' and accuracy of 0.25% or better.

TEXMATE www.texmate.com

Programmable panel meters and digital displays.

THERMX SOUTHWEST www.thermx.com

Thermocouple, RTD, and Thermistor probes and transmitters.

AZBIL NORTH AMERICA:

YAMATAKE SENSING CONTROL www.yamatakeusa.com

Controllers, single channel, multi-channel and multi-loop designs. Photoelectric Sensors; Proximity, Safety and Limit Switches.

YAMATAKE AMERICA <http://www.yamatakeamerica.com>

Mag Flowmeters, Pressure and Temperature Transmitters and Valve Positioners.

June 23, 2010

Regional Offices for local applications support, sensor selection and system design:

Bay Area South	Jack Cordell.....	510-794-6243	jack@sensorguys.com
Central Valley	Roger Turner	916-622-9827	roger@sensorguys.com
San Fernando & San Gabriel Valleys	Mike Cohen	818-884-0784	mike@sensorguys.com
San Diego Area	Danny Cassinis.....	714-404-6944	danny@sensorguys.com
