We're YOUR Sensor Guys!

Your Measurement and Control Connection

This is the first of our regular news letters. We are featuring an old friend in Celesco Transducer Products, an excellent source for position measuring transducers. The other is Tovey Engineering, a new source for our customers for Load and Force measurement. Both of these companies are the leaders in their fields. Please contact one of our sales engineers for help with any measurement application you may have.

Celesco Transducer Products

Linear and Rotary Measurement Solutions

These transducers are engineered for quick, easy simple installation providing reliable and accurate measurements.

[Click here for the Celesco website](#) or just contact us. With our years of experience, we can help. [Click here for YOUR Sensor Guys website.](#)

Tovey Engineering

The Technical Leader in Load Cells and Force Measurement

They are experts in high accuracy force and torque calibration systems. Precision and fatigue rated, they range from 1 to 1 million lbf.

[Click here for the Tovey website](#) or just contact us. You know, you can always contact us, [click here for YOUR Sensor Guys website.](#)

D&D Engineering is a sales company specializing in the application of instrumentation for measurement and control problems. It is our goal to solve our customer's measurement

problems with the best technical and cost-effective solutions.

Let me know if you have any suggestions for the newsletter.
