Your Measurement and Control Connection

PRODUCT UPDATE #5

This month we digress and discuss application. There are times when you will need a stand alone data acquisition system with a sensor for short term, temporary monitoring.

D&D Engineering - SL100 System

Level, position and pressure transmitters

D&D Engineering is introducing our stand alone monitoring system the SL100. Here is what we have:

Data Logger - battery powered, will operate for 3-4 weeks
Loop Powered Transmitter (the measurement)

Applications include:

- Sewer Level Monitoring
- Wet or Dry Well Monitoring
- Pipe Line Pressure Monitoring
- Position Monitoring

The system is available for purchase or lease. Contact us for a data sheet or quotation.

We can help! [Click here for YOUR Sensor Guys website.](#)

D&D Engineering is a sales company specializing in the application of instrumentation for measurement and control problems. It is our goal to solve our customer's measurement problems with the best technical and cost-effective solutions. Please contact one of our sales engineers for help with any measurement application you may have.

Let me know if you have any suggestions for the newsletter.

Best Regards,
